najmul-islam-naeem    naeemcse    portfolio

## Bio

Experienced Full-Stack Developer skilled in .NET, Entity Framework, MS SQL, MongoDB, React, Next.js, Tailwind, and Bootstrap. Passionate about learning new technologies, tackling challenges, and delivering high-quality solutions. A dedicated team player with strong problem-solving skills and a collaborative mindset.

## Education

### Comilla University

January 2020 – May 2025

BSc. in Computer Science & Engineering, CGPA: 3.60

## Achievements

- Won the **1st** Place in the web application Category in Project ShowCase-2024 organized by IIT, NSTU.
- Secured **3rd** Position in Professional Programming with **C#** at DevSkill

## Experience

### Software Engineer I at Brain Station 23

July 2025 – present

Onsite

- Working with **.NET Framework**, C#,Entity Framework,Microsoft SQL Server
- OOP, Design Pattern, SOLID Principle, Clean Architecture, Stored Procedure, SignalR, CI/CD, Git, GitHub, Docker, Unit Testing
- Developing Nopcommerce Plugin and theme under **NopStation**

### Participated at Learnathon (Hosted by Brain Station 23)

January 2025 – April 2025

Remote, through Geeky Solution

- Learned **.NET Framework**, C#,Entity Framework,Microsoft SQL Server
- OOP, Design Pattern, SOLID Principle, Clean Architecture, Stored Procedure, SignalR, CI/CD, Git, GitHub, Docker, Unit Testing
- Developed a full-stack project **Easy Travel BD** using best practices and teamwork under a mentor.

## Projects

### Easy Travel BD

Live Link — GitHub Repository

A full-stack travel management web platform

Under Brain Station's Mentor

- Designed and developed an ASP.NET Core MVC platform for booking buses, cars, hotels, photographers, and guides.
- Integrated user authentication, role-based access, and profile management using ASP.NET Identity.
- Built a generalized recommendation system to display top-rated services (hotels, buses, etc.) dynamically.
- Used SQL Server with Entity Framework and implemented Repository and Unit of Work patterns.
- Implemented booking history, user dashboard, and admin panel to manage listings.
- Integrated SwiperJS and AOS for interactive UI/UX, and followed responsive design principles.
- **Technology :** ASP.NET Core MVC, SQL Server, Entity Framework, Bootstrap, JavaScript, AOS, SwiperJS

### SkillMap

NSTU Project Showcase 2024 - 1st Place — GitHub Repository

Full-Stack Professional Hunting Platform

- Built a location-based platform for discovering and connecting with service providers. Features include real-time one-to-one messaging, rating and reviews, and Google Maps API integration for navigation.
- **Tech Stack:** Node.js, Next.js, React, Prisma, MySQL, Tailwind CSS

### Ludo Game Using C#

GitHub Repository

Console-Based Game with AI Opponent

- Developed a turn-based Ludo game in C# with support for both human and AI players, featuring dice rolling, movement logic, and an interactive console UI.

## CodeForces Analyzer

[Live Link](#) — [GitHub Repository](#)

*Codeforces submission analysis tool*

- Fetches and analyzes Codeforces submissions using the Codeforces API. Visualizes data on problem categories, programming languages, submission trends, and error rates with interactive graphs.
- **Tech Stack:** Next.js, React, Codeforces API and Tailwind CSS

## Dynamic Portfolio with Admin Panel

[Live Link](#) — [GitHub Repository](#)

*Full-stack Portfolio Website*

- Built a dynamic portfolio with blog management, project showcasing, rich text editing via Tiptap, and integrated email communication for visitors.
- **Tech Stack:** Next.js, React, Tailwind CSS, TipTap, MongoDB,

## MERN Real-Time Chatting Application

[GitHub Repository](#)

*One-to-one and group messaging with real-time updates*

- Real-time one-to-one and group chat functionality.
- **Tech Stack:** MERN, Socket.IO, Chakra UI

## Video Sharing Platform

[GitHub Repository](#)

*React Native video-sharing app with Appwrite backend*

- Built with React Native and Expo for cross-platform support.
- Backend powered by AppwriteIO for authentication and storage.

## Technical Skills

---

### Backend Development

*ASP.NET Core, Entity Framework, MS SQL Server, Node.js, Express.js*

### Frontend Development

*React, Next.js, JavaScript*

### Databases

*MS SQL Server, MySQL, MongoDB*

*ORM: Entity Framework Core, Prisma, Mongoose*

### Programming Languages

*C# (Advance), C++ (Problem Solving), C (Problem Solving), JavaScript (Advance), TypeScript, Java (Basic), Python (Basic)*

### Software Development Principles

*OOP, SOLID Principles, Clean Architecture, Unit Testing, CQRS, Mediator, Identity Framework*

### Tools & DevOps

*Git, GitHub, Docker, Cloud Computing, Azure, AWS, Web Security*

## Other Skills

---

### Teaching & Mentorship

*Instructor at Development Bootcamp 2024 (Arranged by CSE Department, Comilla University)*

Instructor at ICT Care Home, a YouTube channel for Programming and Academics

### Problem Solving

*Solved 1000+ problems on online judges like Codeforces, LeetCode, HackerRank*

### Software Development Knowledge

*Strong understanding of Algorithms, Data Structures, and Software Design Patterns*

### Teamwork & Leadership

*Excellent collaboration in teamwork and enjoy leading projects*
